CHAIRMAN'S LETTER

Dear Shareholders,

I am delighted to report yet another better performance of KPR.

In the Financial Year 2014-15, your Company earned a record Consolidated Revenue of ₹ 2,589 Crores and a Net profit of ₹ 173 Crores. The financial results reflected a strong performance. On the total turnover, exports constitutes 33% and domestic 67%. In a challenging, increasingly cost-sensitive environment, our focus on Garment, the prospective textile segment, has prompted expansion. This strategic move has significantly improved the revenue and we hope that the strong level of performance will sustain.

Cotton cost is the governing factor of the Spinning Industry. While its present stable level of prices is advantageous to the Industry, the power shortage, steep hike in power tariff and evacuation issue at Tamil Nadu have been deterrent to the competitiveness of textile mills in Tamil Nadu. However, KPR with the ardent support of captive green power capacity is able to mitigate its impact considerably. Your Company's continued success is due to the dedication, commitment and performance of our workforce, which remains its biggest asset; we continue to invest in their development.

We are glad to inform that in respect of Garment capacity expansion, the Brown Field project and Green Field Project have been successfully completed as envisaged. The Company is planning for a new Green Field expansion with a capacity of 36 Million Garments per annum in the current

year. The unstinted support from the existing buyers and encouraging stimulus from new markets are driving the expansion effort. This shall lead to making KPR as one of the largest Garment Producer in the Country. Though Sugar Industry is under tremendous pressure with matchless cost of Production vis-à-vis sugar price and dismal margin, we are able to breakeven. In Audi Car Dealership, we continue to be the market leader at this territory and widening its sales network at Madurai, Tamil Nadu.

This year, considering strong performance, our dividend payout is ₹ 9 per share including ₹ 5 proposed as final dividend. The earnings per share of the Company increased to ₹46 from ₹ 37 last year.

Being a responsible Corporate, we remain focused in creation of healthy and progressive society. Our key focus areas for helping the community lie in education-including vocational education, leading to sustainable livelihood, especially that of women, by empowering them to stand on their own with the financial strength besides equipping them with the skill that was once claimed to be that of manhood alone. Your Company continues its environment friendly measures including planting trees, substitution of conventional fuel with bio-gas in factories, recycling of waste water apart from generation of substantial green energy, to create a better environment.

KPR is a unique Company because of its strong fundamentals and impeccable Labour force which allows us to take a long-term view and strategy to grow further. Your Company has been recognized by industry, customers and media for excellence along many dimensions including overall

financial performance, human resources, sustainability, investor relations, infrastructure, communications and governance.

We are glad to note that the Business Magazines have ranked K.P.R. Mill Limited:

- ⚙ 15th largest Textile & Garment Company in India.
- ⚙ 285th place out of Top 500 Companies in Profitability
- ⚙ 332nd place out of Top 500 biggest Companies in India.

I want to thank each shareholder for their support and commitment to the Company that has helped to place KPR among the valuable Companies in India. I look forward to your continued support as your Company embarks on the next phase of its growth journey. I am grateful to the Board of Directors for their unwavering support and guidance. I would also like to take this opportunity to thank the entire management team for their energy and tireless work throughout the year.

Leveraged raw material, strengthened and sustained better compliance practices continue to attract the Buyers and International Brands to source from India. Despite the challenges faced by the Spinning Industry, with the uptrend in demand for the Garment Segment, the Industry is expected to achieve the earmarked target in the current year.

With best wishes

REVIEW OF OPERATIONS

Indian Textile Industry, one of the key drivers of Indian Economy, is passing through a positive phase. Our expanded Garment capacity has joined the mainstream. During the year, production levels at all segments of textiles have gone up. However, the steep decline in Cotton prices has impacted the yarn realisation by around 10% over previous year. The up-trend in demand at the Garment Segment entailed the Company to achieve the reported Turnover, despite the challenges faced by the Spinning Segment. Evacuation issue at Power front in the State still continues. Cost of Power and Labour has gone up due to increase in Power charges & Minimum Wages by the Government. Comfortable cash flow enabled the Company to lower working capital loan and Finance cost. The Company earned a Cash Profit of ₹ 272 Crores and Cash EPS of ₹ 72 as against ₹ 260 Crores and ₹ 69 in the previous year. The favourable market trend and the enhanced Garment capacity would strengthen the prospects of the Company. Competing countries' higher cost of production would further widen India's stake at International Market.

DIVIDEND

In its Meeting held on 5th February 2015, Your Board of Directors had declared an interim dividend of 40% on the Equity Shares of the Company. The Board has recommended a final dividend of 50% on Equity Shares, subject to the approval of the Members at the ensuing 12th Annual General Meeting.

Your Directors have recommended the payment of Dividend of 7% on Redeemable Cumulative Non-Convertible Preference Shares of ₹ 100 each.

GARMENTS EXPANSION

Driven by consistent demand, the Global Textile & Apparel Trade is growing rapidly. The core competency enabled Indian Textile Industry to emerge as the World's second largest Textile Exporter. The uptrend is expected to remain for a long term. The Garment capacity expansion mooted during last year has been successfully completed as detailed below.

Directors' Report

BROWN FIELD

The Brown field Garment expansion at our Arasur Garment Facility upgrading its capacity by 10 million pieces per annum was completed as scheduled and its Production had commenced from 24th June 2014 onwards.

GREEN FIELD

We are pleased to announce that the Green field Garment expansion at Thekkalur has also been successfully completed as contemplated. It has commenced commercial production from March 2015 onwards. These enhanced our overall Garment Production capacity from 37 Million Pieces to 59 Million Pieces per annum. The increased capacity is fully backed up by firm orders. The Financial Year 2015-16 shall witness its full-fledged operations.

FURTHER EXPANSION

To convert its potential into reality, K.P.R. is planning to add a further large Green field manufacturing facility of 36 Million garments per annum at an estimated cost of ₹ 175 Crores. With this, the total garment capacity will become 95 Million garments per annum, one of the largest in the Country. The project is expected to complete during this financial year. Considering the impelling orders from the existing Buyers and the encouraging response from U.S. market, the Board has considered and accorded its approval to the proposal.

SUBSIDIARY COMPANIES

The Company has the following four Wholly Owned Subsidiary Companies and the Statements pursuant to Section 129 (3) of the Companies Act, 2013 (Hereinafter referred to as the 'Act') in 'Form AOC- 1' containing the details of Subsidiaries forms part of this Annual Report. [Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies
 (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,
 M/s. K.P.R. Mill Limited,
 Coimbatore.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by K.P.R. Mill Limited (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing our opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2015 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by K.P.R. Mill Limited for the financial year ended on 31st March, 2015 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;

Management Discussion & Analysis

MANAGEMENT DISCUSSION AND ANALYSIS REPORT-2014-15

Moderate global growth continues amid challenges and risks. Global economic growth is expected to increase marginally at 3.1 per cent in 2015 and 3.3 per cent in 2016, compared with an estimated growth of 2.6 percent for 2014. An expected US interest rate increase, remaining EURO area fragility, a further slowdown in developing economies and geopolitical conflicts pose major concerns for the global economic outlook.

According to the World Bank & International Monetary Fund, India is on course to overtake China, the hardest-hitting heavy weight economy for years, to claim the position as the world's fastest growing, big economy in the next two years. Forecasts for India are raised saying "growth in Asia's third-largest economy would accelerate in the coming years even as much of the world is slowing down, in view of changes implemented to make the Country's economy more efficient and vibrant. The opening up of the coal industry to private investors, a deregulation of diesel prices to reduce the fiscal subsidy bill, a relaxation of labour market laws, and a linking of cash transfers with efforts to increase financial inclusion" were all cited by the report as helping in India's progress towards supercharged growth.

Propelled by sustained demand, the Global Textile and Apparel Trade is expected to grow rapidly in the years to come. The strong expectation that India will bounce back as a world textile superpower by regaining its lost glory and reputation, has been substantiated by the latest ITMF (International Textiles Manufacturers Federation) data. With domestic consumption of approximately \$68 billion and export value of roughly \$40 billion, the sector accounts for about six percent of the \$1.8 trillion Indian economy and nearly 13 percent of the country's total export basket. The Indian Textile and Apparel Industry grew at a CAGR of 13 percent during 2008-13 and is projected to expand at 12 percent to attain a size of \$440 billion by 2025. Being the second largest employment provider to the Indian Economy, around 45 million workers are benefited directly or indirectly accounting for 21 percent of the total employment generated in the economy. The core competency enabled Indian Textile Industry to emerge as the World's second largest Textile Exporter, overtaking Germany and Italy. Abundant availability of raw materials and skilled workforce has made India a preferred sourcing hub. With consumerism and disposable income on the rise, the sector has experienced a rapid growth in the past decade with several international players having entered Indian market.

As for India's position in the global textile value chain, the numbers are impressive. India hosts roughly 25 percent of the global spinning capacity. And, because of the TUF program in the recent past, the age structure of this capacity is relatively young – that means productivity. India produces 20 percent of global cotton supply both for domestic use and for export. About

27 percent of the foreign exchange earnings are on account of export of textiles and clothing alone. The future looks bright for the Indian Textile and Apparel Industry.

Our Performance

Despite the challenges faced by the Spinning Industry, the vibrant Garment sector entailed the Company to achieve enhanced revenue over last year. Garment sales have grown by 34% and Yarn & Fabric Sales by 30%. Compared to last year, conversion of Yarn into Fabrics has increased – Increase in 'value added products'. The congenial cash flow enabled pre-payment of some of the high cost debts thereby reducing finance cost on consolidated financials.

As a twin blow to the industries 20% non-peak hour power cut and increase in Power Tariff were announced by the State. Sourcing power from other avenues became unattractive as the TANGEDCO started charging additional charges. These, coupled with power evacuation issue at State level pushed up the power cost. To meet the situation the Company had tied up with some of the Tamilnadu Power Producers under group captive consumption by investing in the Equity Capital of those Companies. Hike in the Minimum Wages and the wage level for PF Contribution by the Governments added Labour cost considerably. All these factors impacted the EBITDA level marginally over previous year. However our prompt expansion in Garments to meet the spurt in demand and conversion of some of its spindle from ring spinning to compact spinning that improves the quality & productivity of the yarn, will tend to off-set the aforesaid factors. Moreover resorting to regular nominal Capex and prudent choosing of further area of Expansion would result in cordial cash flow. Because of our competitive advantages (power, labour, close to buyer's market, etc.), integrated operations, diversified product mix, growing exports and strong balance sheet we are much positive on further progress and growth.

COTTON

Swelling Global cotton stockpiles drove the prices of cotton to the longest slump as demand slows in China, the World's top consumer. The free and stable cotton policy of the government during the past few years led to the largest ever acreage under cotton in India during the season. The repetitive record output prediction and waning Exports to China, due to change in its reserve Policy, led its decline in prices even below MSP that prompted CCI to procure cotton to an extent of 86 lakh bales so far. The Indian cotton price was lower than international price since the beginning of the current cotton season till recently. However, now the Indian cotton prices are substantially above the international prices. Textile units have appealed to the Cotton Corporation of India (CCI) to release cotton stocks with it as prices have gone up in the last few weeks. The Indian cotton Balance sheet is given below.

Cotton Season - (October-September)

(in Lakh Bales) - 2014-15 (As on 31.03.2015)

Opening Stock	32.00
Production	390.00
Imports	8.00
Total Supply	430.00
Consumption	320.00
Exports	70.00
Total Demand	390.00
Closing Stock	40.00

YARN

Indian yarns have become more competitive in International Market, because Indian spinners have specialized in producing superior quality yarns. Spinning margins have been shrinking because of the devaluation in cotton inventories. Indian Cotton yarn export is estimated to have declined by 15 percent during 2014-15, with a steep fall in shipments to China due to slow down in its Textile Industry. Exporters have tried to compensate from elsewhere. As yarn prices fall, fabric prices do not fall as much and therefore fabric margins improve. In fact, both yarn and fabric segments, our margin drop would be lesser than the margin drop of pure spinning companies. The present Lean trend in yarn exports is only temporary. The outlook on the Indian cotton spinning industry has improved after the pressure witnessed in H1 FY 2015 and is expected to remain stable over the next year.

GARMENTS

Driven by sustained demand the Company has enhanced its Garment manufacturing capacity to 59 Million pieces per annum through Brownfield addition and Greenfield establishment. Current year performance will reflect its full production.

Knitwear exports from Tirupur, the Asia's largest Knit-wear cluster have registered a growth of 15.5 percent in terms of rupee and 15.9 percent in terms of foreign currencies during 2014-15 financial year according to a press statement. As per the data knitwear products worth ₹ 20,730 crore were exported from Tirupur cluster during 2014-15 fiscal when compared to ₹ 18,000 crore worth of exports registered in the previous fiscal. After years of slow growth, Tirupur looks set to exploit overseas orders that are getting diverted from nearby competing Countries, where the industry is increasingly facing

issues related to workshop safety, labour rights, higher wages and political uncertainty. Customers recognise that Tirupur is a better place when it comes to quality, delivery and reliability. However, fortuitously for Tirupur, the past few years have eroded the edge those Countries enjoyed over Garment Exports from India.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Your Company has in place an adequate system of internal controls, with documented procedures covering all corporate Functions. Necessary checks and balances are in place to ensure that transactions are adequately authorized and reported correctly. The Audit Committee considered the systems as laid down and satisfied itself of the adequacy and effectiveness of the internal financial control system as laid down and kept the Board of Directors informed.

To maintain its objectivity and independence, the Internal Audit function reports to the Chairman of the Audit Committee and to the Managing Director of the Company. The scope and authority of the Internal Audit function is defined in the Audit Committee Charter. The Internal Auditor of the Company conducts Audit of various departments to ensure that necessary controls are in place. The Audit Committee reviews these controls periodically. Based on the report of internal audit function, corrective actions in the respective areas are taken to further strengthen the controls. Significant audit observations and recommendations along with corrective actions thereon are presented to the Audit Committee of the Board periodically.

HUMAN RESOURCES

One of the Key Issues the Textile Industry grappling with is Labour shortage. However, its impact on K.P.R is minimal in view of its acclaimed 'Five Star' rated Labour care such as provision of safe shelters, nutritious food, hygienic working conditions and enormous facilities for a comfortable living and more than all a 'feel at home atmosphere'. To further ensure a bright & prosperous life ahead of each & every Employees at KPR group, they are offered higher education facilities with the tie-up of Leading Universities, which remained a distant dream for those who hailed from downtrodden rural areas. With the high standard of such coaching, every year the Employees prove their outstanding talent in the Government conducted Examinations. Towards their social contribution, they have participated in 'Swachh Bharat (Clean India) Campaign' at various villages in a massive way.

GREEN INITIATIVES

Towards green initiative, planted numerous trees in the Villages and at all the Units; Re-cycling waste water at all plants and

Management Discussion & Analysis

uses it for productive purposes; Producing Bio-gas from human waste, thereby reducing usage of LPG; Installed a massive Effluent Treatment Plant with zero discharge system at its Processing facility since its inception.

OPPORTUNITIES & STRENGTHS

Textile Industry's growth depends upon certain significant factors as detailed below:

Raw Material: The major Raw material is Cotton which is available aplenty in India, the second largest producer of cotton and net exporter. Increase in area of cultivation and record production in the recent years ensures availability of quality cotton throughout the Year.

Availability of Labour: Textile is a Labour Intensive Industry. Availability of Labour, more particularly skilled work force is essential for its Growth. India has the largest labour resource in the world. The Industry and the Government are taking the initiative to enhance the skilled labour resource.

Improvement in Domestic Consumption: Fuelled by factors including rising disposable income, growth in organised retail, increasing brand awareness, rapid urbanisation and increase in working age population, the domestic consumption is growing rapidly.

PREVAIL OVER COMPETING COUNTRIES

Buoyed by both strong domestic consumption as well as export demand the Indian Textile Industry is set for strident growth. China, India, Pakistan, Thailand, Indonesia are some of the leading countries in terms of installed machinery capacity. However, sharp improvement in raw material supplies, steady surge in domestic as well as global demand, decline in Chinese exports to major markets, Labour and Safety issues at Indonesia & Bangladesh extend an edge to Indian Textile Industry over other competing countries.

WEAKNESS & THREATS

While there is a proper structure for risk management, which is regularly implemented across the organization, there are certain regular risks and concerns that surface in the business.

The threats to the Company, closely monitored and addressed, comprise of:

- **Foreign exchange fluctuation risk:** Significant portion of our revenues is sourced from exports, exposing us to foreign exchange risk. We have always taken a conservative stance on it, fully hedge our risk.
- **Volatile raw material prices:** For us, cotton is the utmost crucial raw material. Cotton being commodity, whose supply is dependent on the forces of nature, has been quite volatile in nature. But over the years, we have learned to assess the situation and respond to them. In the recent years, we have also successfully explored into new geographies to source the same high quality cotton, putting us in a better position to mitigate domestic supply constraints.
- **Rising Competition:** Abundant availability of cotton in India and rising domestic consumption, gives an impetus to rising competition in business. We believe competition is healthy and we will continue to adopt new technologies, diversify our product offerings, strengthen marketing network.

ROAD AHEAD

The future outlook for the Indian Textile Industry looks promising. With consumerism and disposable income on the rise, the sector has experienced a rapid growth in the past decade. The up-trend is expected to remain for a long term. There are positive drivers which indicate further growth, such as availability of cotton in abundance with potential for higher yield; emerge of ample opportunities to produce value added products; garment market's upbeat; thriving export and domestic market demands etc.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF K. P. R. MILL LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **K.P.R. MILL LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2015, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government in terms of Section 143 (11) of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Independent Auditors' Report

- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on 31st March, 2015 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2015 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 28 to the financial statements;

1 CORPORATE INFORMATION

K.P.R. Mill Limited along with its wholly-owned subsidiary Quantum KNITS PVT. LIMITED is one of the largest vertically integrated apparel manufacturing Companies in India. The Company produces Yarn, Knitted Fabric, Readymade Garments and Windpower. It has state-of-the-art production facilities in the State of Tamil Nadu, India.

The Company's shares are listed in Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).

2 SIGNIFICANT ACCOUNTING POLICIES**A) BASIS OF ACCOUNTING**

- (i) The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable.
- (ii) The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year except for change in the accounting policy for depreciation as more fully described in Note 44.

B) USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

C) INVENTORIES

Inventories are valued at the lower of cost (e.g. on FIFO / specific identification method) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty.

D) CASH AND CASH EQUIVALENTS (FOR PURPOSES OF CASH FLOW STATEMENT)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

E) CASH FLOW STATEMENT

Cash flow are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

F) DEPRECIATION

Depreciation on Fixed Assets is provided on Straight Line Method at the rates prescribed in Schedule II of the Companies Act, 2013, except 1) Wind Mill @ 8.33% 2) Plant & Machinery @ 10.34% and 3) Electricals @ 7.07% based on useful life ascertained for such asset through technical assessment by competent Professional.

G) REVENUE RECOGNITION

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Sales include excise duty but exclude sales tax and value added tax. Sale of Service and revenue from sale of windmill power are recognised when services are rendered and related costs are incurred. Dividend Income is recognised when right to receive the income is established. Interest income is recognised on time proportion basis (accrual basis) taking into account the amount outstanding and rate applicable. Export incentives are accounted for in the year of exports based on eligibility and expected amount on realisation.

H) FIXED ASSETS

- i) Fixed assets and intangibles are stated at cost less accumulated depreciation / amortisation and impairment losses, if any. Cost includes all costs relating to acquisition and installation of fixed assets including any incidental costs of bringing the assets to their working condition for their intended use. The Company has adopted the provisions of para 46 / 46A of AS 11. The Effects of Changes in Foreign Exchange Rates,

and accordingly, exchange differences arising on restatement / settlement of long-term foreign currency borrowings relating to acquisition of depreciable fixed assets are adjusted to the cost of the respective assets and depreciated over the remaining useful life of such assets. Machinery spares which can be used only in connection with an item of fixed asset and whose use is expected to be irregular are capitalised and depreciated over the useful life of the principal item of the relevant assets. Subsequent expenditure on fixed assets after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

- ii) Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately.

Capital work-in-progress

- iii) Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

I) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATIONS

Initial Recognition : Transactions in Foreign Currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transactions or at rates that closely approximate the rate at the date of the transaction or at the forward contract rate for the transaction.

Measurement at the Balance Sheet Date : Foreign currency monetary items (other than derivative contracts) of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

Treatment of exchange differences - when para 46 / 46A of AS 11 is adopted : Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

Accounting for forward contracts : Premium / discount on forward exchange contracts, which are not intended for trading or speculation purposes, are amortised over the period of the contracts if such contracts relate to monetary items as at the balance sheet date. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or as expense in the period in which such cancellation or renewal is made.

J) GOVERNMENT GRANTS, SUBSIDIES AND EXPORT INCENTIVES

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants / subsidies will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. The grant is recognised as income over the life of a depreciable asset by way of a reduced depreciation charge.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Government grants in the nature of promoters' contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve. Government grants in the form of non-monetary assets, given at a concessional rate, are recorded on the basis of their acquisition cost. In case the non-monetary asset is given free of cost, the grant is recorded at a nominal value.

Other government grants and subsidies are recognised as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis.

K) INVESTMENTS

Long term investments (excluding investment properties) are carried at cost less provision for diminution other than temporary in the value of such investments. Current investments are stated at lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Fixed Assets.

L) EMPLOYEE BENEFITS

(a) Short Term

Short term employee benefits are charged off at the undiscounted amount in the year in which the related service is rendered.

(b) Long Term Post Retirement

Post Retirement Benefits comprise of Provident Fund and Gratuity which are accounted for as follows:

i) Provident fund

This is a defined contribution plan, and contributions made to the Fund are charged to Revenue. The Company has no further obligations for future provident fund benefits other than monthly contributions.

ii) Gratuity unB

This is a defined benefit plan. The Company makes annual contribution to a Gratuity Fund administered by LIC. The liability is determined based on the actuarial valuation using projected unit credit method. Actuarial gains and losses are recognised in full in the Statement of Profit and Loss for the period in which they occur. The Retirement Benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost.

iii) Leave cashment

There is no scheme for encashment of unavailed leave.

M) BORROWING COSTS

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such assets are added to the cost of the assets. Capitalisation of borrowing cost is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying asset is interrupted.

N) SEGMENT REPORTING

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

O) LEASE

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

P) EARNINGS PER SHARE

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

Q) TAXATION

Current tax is determined on the basis of taxable income and tax credits computed in accordance with the applicable tax rates and the provisions of applicable tax laws.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are off set if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

Current and deferred tax relating to items directly recognised in reserves are recognised in reserves and not in the Statement of Profit and Loss.

R) RESEARCH AND DEVELOPMENT EXPENSES

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Fixed Assets.

S) IMPAIRMENT OF ASSETS

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. The recoverable amount of such asset is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to

their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

T) PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

U) INSURANCE CLAIMS

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

V) SERVICE TAX INPUT CREDIT

Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing / utilising the credits.

W) EXCISE DUTY

The Company has opted to adopt for 'Exempted Route' under Central Excise Rules for local sales. Accordingly, CENVAT credit on inputs is not available to the Company and no excise duty is payable on sales of manufactured goods.

X) OPERATING CYCLE

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Pursuant to the transition provisions prescribed in Schedule II to the Companies Act, 2013, the Company has fully depreciated the carrying value of assets, net of residual value, where the remaining useful life of the asset was determined to be nil as on April 1st 2014, and has adjusted an amount of ₹ 61 Lakhs (net of deferred tax of ₹ 32 Lakhs) against the opening Surplus balance in the Statement of Profit and Loss under Reserves and Surplus.

The depreciation expense in the Statement of Profit and Loss for the year is higher by ₹ 251 Lakhs consequent to the change in the useful life of the assets.

45 The previous year figures have been regrouped / reclassified wherever necessary to conform to current year's classification.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF K.P.R. MILL LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of K.P.R. MILL LIMITED (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at 31st March, 2015, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards

and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2015, and their consolidated profit / loss and their consolidated cash flows for the year ended on that date.

Other Matters

- (a) We did not audit the financial statements / financial information of three subsidiaries, whose financial statements reflect total assets of ₹ 66,046 Lakhs as at 31st March, 2015, total revenues of ₹ 67,026 Lakhs and net cash flows amounting to ₹ (4494) Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, jointly controlled entities and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements.

Report on Other Legal and Regulatory Requirements

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Our reporting on the Order includes three subsidiary companies, to which the Order is applicable, which have been audited by other auditors and our report in respect of these entities is based solely on the reports of the other auditors, to the extent considered applicable for reporting under the Order in the case of the consolidated financial statements.

- (i) In respect of the fixed assets of the Holding Company and subsidiary companies, incorporated in India:
 - (a) The respective entities have maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The fixed assets were physically verified during the year by the Management of the respective entities in accordance with a regular programme of verification which, in our opinion and the opinion of the other auditors, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanation given to us and the other auditors, no material discrepancies were noticed on such verification.
- (ii) In respect of the inventories of the Holding Company and subsidiary companies incorporated in India:
 - (a) As explained to us and the other auditors, the inventories were physically verified during the year by the Management of the respective entities at reasonable intervals.
 - (b) In our opinion and the opinion of the other auditors and according to the information and explanations given to us and the other auditors, the procedures of physical verification of inventories followed by the Management of the respective entities were reasonable and adequate in relation to the size of the respective entities and the nature of their business.
 - (c) In our opinion and the opinion of the other auditors and according to the information and explanations given to us and the other auditors, the respective entities have maintained proper records of their inventories and no material discrepancies were noticed on physical verification.
- (iii) According to the information and explanations given to us, the Holding Company and subsidiary companies, incorporated in India have granted loans, to the extent included in the consolidated financial statements, secured or unsecured, to companies, firms or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013 by the respective entities. In respect of such loans:
 - (a) In the absence of stipulations, the regularity of the receipts of principal amounts and interest has not been commented upon. In respect of 3 subsidiary Companies incorporated in India.
 - (b) As the terms of repayment of principal have not been specified, we are unable to comment whether there are any overdue principal exceeding ₹ 1 Lakh remaining outstanding as at the year-end and whether the Management has taken reasonable steps for recovery of the principal amounts.
- (iv) In our opinion and in the opinion of the other auditors and according to the information and explanations given to us and the other auditors, there is an adequate internal control system in the Holding Company and subsidiary companies incorporated in India, commensurate with the size of the respective entities and the nature of their business for the purchase of inventory and fixed assets and for the sale of goods and services and during the course of our and the other auditors audit no continuing failure to correct major weaknesses in such internal control system has been observed.
- (v) According to the information and explanations given to us, the Holding Company and subsidiary companies, incorporated in India have not accepted any deposit during the year.

2 BASIS OF CONSOLIDATION AND SIGNIFICANT ACCOUNTING POLICIES**A) BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS**

The Consolidated financial statements relate to K.P.R. Mill Limited ('the Company') and its wholly owned subsidiary Companies Quantum KNITS PVT. LIMITED, K.P.R.Sugar Mill Limited, Galaxy Knits Limited and Jahnvi Motor Private Limited. The Company and its subsidiaries constitute the Group.

B) BASIS OF ACCOUNTING

- (i) The financial statements of the subsidiary Company used in the consolidation are drawn up to the same reporting date as of the Company i.e. year ended 31st March, 2015.
- (ii) The consolidated financial statements of the Company and its subsidiaries (together the 'Group') have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable.
- (iii) The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the previous year except for change in the accounting policy for depreciation as more fully described in Note 45.

C) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements relate to K.P.R.Mill Limited ('the Company'), and its subsidiary companies. The consolidated financial statements have been prepared on the following basis:

- i) The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis in accordance with the principles laid down in Accounting Standard (AS) 21 on "Consolidated Financial Statements" by adding together the value of like items of assets, liabilities, income and expenses after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profit or loss unless cost cannot be recovered.
- ii) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances are presented to the extent possible, in the same manner as the company's separate financial statements.
- iii) The following subsidiary companies have been considered in the preparation of the consolidated financial statements:

S.No.	Name of Subsidiary Company	Country of Incorporation	% of holding as at 31st March, 2015	% of holding as at 31st March, 2014	Date of Incorporation / Acquisition
1	M/s Quantum KNITS PVT. LIMITED	India	100	100	03.06.2009
2	M/s K.P.R.Sugar Mill Limited	India	100	100	27.06.2011
3	M/s Galaxy Knits Limited	India	100	100	24.07.2012
4	M/s Jahnvi Motor Private Limited	India	100	100	30.10.2012

- (iv) The excess of cost to the Group of its investments in the subsidiary companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies were made, is recognised as 'Goodwill' being an asset in the consolidated financial statements and is tested for impairment on annual basis. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investments of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Reserves & Surplus', in the consolidated financial statements. The 'Goodwill' / 'Capital Reserve' is determined separately for each subsidiary company and such amounts are not set off between different entities.

D) USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

E) 1) INVENTORIES - TEXTILE

Inventories are valued at the lower of cost (e.g. on FIFO / specific identification method) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty.

2) INVENTORIES - SUGAR

- i) Finished goods are valued at cost or net realisable value whichever is lower. The cost for the finished goods is inclusive of cost of purchase, cost of conversion, excise duty, cess, if any, and other costs incurred in bringing the inventories to their present location and condition.
- ii) Stock-in-process, Stores, Spares, Consumables, Packing and Other Materials are valued at lower of Cost or Net Realizable Value.
- iii) Waste and Scrap are valued at Net Realizable Value.

F) CASH AND CASH EQUIVALENTS (FOR PURPOSES OF CASH FLOW STATEMENT)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

G) CASH FLOW STATEMENT

Cash flow are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

H) DEPRECIATION

Depreciation on Fixed Assets is provided on Straight Line Method at the rates prescribed in Schedule II of the Companies Act, 2013, except 1) Wind Mill @ 8.33% 2) Plant & Machinery @ 10.34% and 3) Electricals @ 7.07% based on useful life ascertained for such asset through technical assessment by competent Professional.

I) REVENUE RECOGNITION

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Sales include excise duty but exclude sales tax and value added tax. Sale of Service and revenue from sale of windmill power are recognised when services are rendered and related costs are incurred.

J) OTHER INCOME

Dividend Income is recognised when right to receive the income is established. Interest income is recognised on time proportion basis (accrual basis) taking into account the amount outstanding and rate applicable. Export incentives are accounted for in the year of exports based on eligibility and expected amount on realisation.

K) FIXED ASSETS

- i) Fixed assets and intangibles are stated at cost less accumulated depreciation / amortisation and impairment losses, if any. Cost includes all costs relating to acquisition and installation of fixed assets including any incidental costs of bringing the assets to their working condition for their intended use. The Company has adopted the provisions of para 46 / 46A of AS 11. The Effects of Changes in Foreign Exchange Rates, and accordingly, exchange differences arising on restatement / settlement of long-term foreign currency borrowings relating to acquisition of depreciable fixed assets are adjusted to the cost of the respective assets and depreciated over the remaining useful life of such assets. Machinery spares which can be used only in connection with an item of fixed asset and whose use is expected to be irregular are capitalised and depreciated over the useful life of the principal item of the relevant assets. Subsequent expenditure on fixed assets after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.
- ii) Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately.

Capital work-in-progress

- iii) Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

L) FOREIGN EXCHANGE TRANSACTIONS

Initial recognition : Transactions in Foreign Currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transactions or at rates that closely approximate the rate at the date of the transaction or at the forward contract rate for the transaction.

Measurement at the balance sheet date: Foreign currency monetary items (other than derivative contracts) of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

Treatment of exchange differences - when para 46 / 46A of AS 11 is adopted: Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

Accounting for forward contracts: Premium / discount on forward exchange contracts, which are not intended for trading or speculation purposes, are amortised over the period of the contracts if such contracts relate to monetary items as at the balance sheet date. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or as expense in the period in which such cancellation or renewal is made.

M) GOVERNMENT GRANTS, SUBSIDIES AND EXPORT INCENTIVES

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants / subsidies will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. The grant is recognised as income over the life of a depreciable asset by way of a reduced depreciation charge.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Government grants in the nature of promoters' contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve. Government grants in the form of non-monetary assets, given at a concessional rate, are recorded on the basis of their acquisition cost. In case the non-monetary asset is given free of cost, the grant is recorded at a nominal value.

Other government grants and subsidies are recognised as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis.

N) INVESTMENTS

Long term investments (excluding investment properties) are carried at cost less provision for diminution other than temporary in the value of such investments. Current investments are stated at lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Fixed assets.

O) EMPLOYEE BENEFITS

(a) Short Term

Short term employee benefits are charged off at the undiscounted amount in the year in which the related service is rendered.

(b) Long Term Post Retirement

Post Retirement Benefits comprise of Provident Fund and Gratuity which are accounted for as follows:

1. Provident Fund

This is a defined contribution plan, and contributions made to the Fund are charged to Consolidated Statement of Profit and Loss. The Company has no further obligations for future provident fund benefits other than monthly contributions.

2. Gratuity Fund

This is a defined benefit plan for K.P.R. Mill Limited and Quantum Knits (A unit of K.P.R. Sugar Mill Limited). The Companies make annual contribution to the Gratuity Fund administered by LIC. The liability is determined based on the actuarial valuation using projected unit credit method. Actuarial gains and losses are recognised in full in the Statement of Profit and Loss for the period in which they occur. The Retirement Benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost. For K.P.R. Sugar Mill Limited and Jahnvi Motor Private Limited, the Companies have made provision in the books.

3. Leave encashment

There is no scheme for encashment of unavailed leave on retirement.

P) BORROWING COSTS

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

Q) SEGMENT REPORTING

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

R) LEASE

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

S) EARNINGS PER SHARE (EPS)

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

T) TAXATION

Current tax is determined on the basis of taxable income and tax credits computed for each of the entities in the Group in accordance with the applicable tax rates and the provisions of applicable tax laws.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

The Group offsets deferred tax assets and deferred tax liabilities, and advance income tax and provision for tax, if it has a legally enforceable right and these relate to taxes in income levies by the same governing taxation laws.

Current and deferred tax relating to items directly recognised in reserves are recognised in reserves and not in the Statement of Profit and Loss.

U) RESEARCH AND DEVELOPMENT EXPENSES

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Fixed Assets.

V) IMPAIRMENT OF ASSETS

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

W) PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

X) INSURANCE CLAIMS

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

Y) SERVICE TAX INPUT CREDIT

Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing / utilising the credits.

Z) i) EXCISE DUTY - TEXTILE

The Company has opted to adopt for 'Exempted Route' under Central Excise Rules for local sales. Accordingly, CENVAT credit on inputs is not available to the Company and no excise duty is payable on sales of manufactured goods.

ii) EXCISE DUTY - SUGAR

The Excise Duty on sale of finished goods is deducted from turnover to arrive at net sales as shown in the statement of profit and loss. The Excise Duty appearing in the statement of profit and loss as an expenditure represents excise duty provision for closing stock of finished goods.

AA) OPERATING CYCLE

Based on the nature of products / activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

45 During the year, pursuant to the notification of Schedule II to the Companies Act, 2013 with effect from April 1, 2014, the Company revised the estimated useful life of some of its assets to align the useful life with those specified in Schedule II. Further, assets individually costing ₹ 5,000/- or less that were depreciated fully in the year of purchase are now depreciated based on the useful life considered by the Company for the respective category of assets. The details of previously applied depreciation method, rates / useful life are as follows:

Asset	Previous Depreciation Method	Previous Depreciation rate / useful life	Revised useful life based on SLM
Factory Building	Straight Line Method	3.34% / ~ 30 years	3.17% / ~ 30 years
Non Factory building	Straight Line Method	1.63% / ~ 61 years	1.58% / ~ 60 years
