Confirmation well in advance appreciated

B&K's Annual Global Investor Conference – 'Trinity India' is recognised as the single largest India investor conference.

In June 2019, we had over 250 companies and 10,000 investors attending our event spread out over three days in Mumbai.

However in 2020, due to the Covid-19 crisis and consequent nationwide lockdowns and travel embargoes, we had to defer the opportunity to connect the captains from India's best corporates with the best investor minds.

But this has neither discouraged nor deterred us from seeking our ambition to keep adding value to you at all times.

To keep up with the changing landscape, we are organising our maiden digital conference "**Periscope 2020**" – where we aim to provide you with a similar experience of 1x1/group interactions with Corporate India.

As India has emerged from a nationwide lockdown, businesses have reported a sequential improvement with the June quarter witnessing a resilient performance from Corporate India. Majority of Corporate India has been reporting a Return to Normalcy with some consumer discretionary sectors also showing a YoY growth in sales.

This coupled with the easy global liquidity has ensured that stock markets sentiment has remained buoyant since its initial fall in March.

As we move into the all-important festive season starting mid-October coupled with the fact that people are yearning to get out of this Covid-induced lockdown, we expect Corporate India to continuously ramp-up production and fill their channels so as to be ready for the potential uptick in demand.

While the last three months (since un-lockdown) have been all about Return to Normalcy – driving stock prices (expanding multiples), the demand uptick come festive season if it materialises will lead to earnings upgrades (triggering an earnings driven price performance).

**B&K's Periscope 2020** digital conference aspires to provide Investment Managers with an ideal platform to assess Corporate India's strategies for delivering growth and investment returns while managing risk in these challenging times.

While we pride ourselves at showcasing investors a list of India's top 250 corporates, this time we have taken the liberty to prune this list down to 80 companies which have shown resilience during these difficult times and have the inherent ability to deliver on the earnings front as India slowly but surely charts its way back to growth.
